

Sergio Agosti

Full-stack Web Developer

Devon, UK
sergioagosti.org

PROFILE

Full-stack web developer with 20 years of experience building accessible, high-performance websites and web applications with open-source technologies. I use AI strategically to accelerate development while retaining responsibility for architecture and quality.

EXPERIENCE

Full-stack Web Developer • The Frameworks

2011–present

Build marketing websites, e-commerce storefronts and bespoke web applications for clients across a range of sectors, including several long-running engagements. I bring a strong understanding of design to full-stack work spanning front end, back end and deployment infrastructure, working effectively with distributed teams; lately focused on AI-assisted development.

Front-end Developer • AOL

9-month contract, 2011

Developed front-end features for a high-traffic blog platform.

Web Developer • Sognando Londra

2009–2011

Maintained the agency's public website and built a customer-facing system for selling travel, study and work packages to London, handling purchases and order management end to end.

Co-founder and Web Developer • Omnidea

2006–2009

Co-founded a small agency building bespoke cross-platform software, focused on web-based applications.
